generating electromagnetic radiation having a plurality of wavelengths ranging over the visible section of the electromagnetic spectrum and over at least parts of the ultra-violet and infra-red sections of the electromagnetic spectrum;

31 filtering a substantial part of said plurality of wavelengths in the ultra-violet section of the electromagnetic spectrum, thereby producing filtered electromagnetic radiation ranging over a substantial part of the visible and at least part of the infra-red sections of said generated electromagnetic radiation; and

applying said filtered electromagnetic radiation to the skin.

30. (New) A method according to claim 29 comprising applying a gel to the skin.

Please cancel claims 1-28 without prejudice.

REMARKS

Applicants have carefully studied the outstanding Office Action. The present response is intended to be fully responsive to all points of rejection raised by the Examiner and is believed to place the application in condition for allowance. Favorable reconsideration and allowance of the application is respectfully requested.

Claims 29 and 30 are pending in the application. Claims 1-28 are rejected. Claims 1-28 have been canceled without prejudice. Applicants reserve all rights in these claims to file Divisional or Continuation Applications.

Claims 29 and 30 have been added to further define Applicants' invention. Applicants assert that the addition of claims 29 and 30 adds no new matter and does
